

GEETARTHA BORPATRA GOHAIN

Aspiring Product Manager — AI Products

Guwahati, Assam | +91 6002425512 | geetartha1404@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Aspiring Product Manager with hands-on experience building AI-powered tools, automations, and voice agents, paired with a clinical background that sharpened structured diagnostic thinking and attention to detail. Comfortable across the AI product stack — LLM tooling, agent orchestration, API integration, and PostgreSQL-backed workflows — with a track record of shipping self-directed projects end to end, from idea to deployed product.

CORE SKILLS

AI Product Tooling: LLM platforms (ChatGPT, Claude, Gemini, Perplexity), AI agent automation, AI voice agents, prompt engineering, GPT customization

Technical: API integration, PostgreSQL, Python, no-code automation, AWS SES/SNS, web scraping

Product & Analytical: Requirements thinking, workflow optimization, structured problem-solving, systematic review/research methodology, stakeholder communication

AI & PRODUCT EXPERIENCE

AI Automation & Digital Marketing Intern — Emozi Technologies {4 months}

- Designed and shipped a no-code AI automation workflow for a healthtech client, streamlining a manual operational process into a repeatable pipeline.
- Built and launched the Emozi Digital website end to end, translating brand requirements into a live product. • Built an internal admin panel that doubled the number of clients the team could manage simultaneously, improving acquisition and account management efficiency.
- Integrated AWS SES & SNS into the email tooling, sustaining 3,000–4,000 automated emails/day with open rates climbing 5–6% week-over-week.
- Created 4 custom GPTs (blog generator, image generator, news updates, stock market updates) adopted as standing tools by the marketing team.

Independent Projects

- Reevalve (in progress) — AI-powered resume analyzer that reviews applicant resumes and generates a structured improvement guide; live demo at reevalve.vercel.app.
- Personal Portfolio — designed and built a from-scratch portfolio site (Next.js, TypeScript, Tailwind) with custom animation and interaction design, deployed on Vercel.
- Web Scraping Automation — built using Python, Claude Code, and Google Colab to automate collection of 1,700+ structured business profiles.
- Blog Migration Automation — automated migration of 1,000+ blog posts from system.io to WordPress, with data reconciliation via Google Sheets.
- Systematic Review: “Role of AI in the Diagnosis of Rectal Cancer” — independent research applying literature-review methodology to evaluate AI diagnostic tools.

CLINICAL BACKGROUND

6+ months of hands-on clinical internship experience as a radiography technician across Ultracare Diagnostic Centre, Down Town Hospital, and Prarthana Orthopaedic & Super Speciality Hospital, Guwahati. Built rigorous skills in structured observation, diagnostic interpretation, and protocol-driven decision-making under time pressure — habits now applied to product and data problems.

EDUCATION

BSc — Assam down town University, 2025 | CGPA: 7.12

12th (CBSE) — Delhi Public School, Guwahati, 2022 | 71%

10th (CBSE) — Delhi Public School, Guwahati, 2020 | 84%

CERTIFICATIONS

- Introduction to Generative AI — Google Cloud, 2024
- Crash Course on Python — Google, 2024
- Introduction to Social Media Marketing — Meta, 2026
- Foundation of Digital Marketing and E-commerce — Google, 2023

ACHIEVEMENTS

- Participated in the North Eastern Regional Conference of the Indian Society of Radiographers and Technologists, AIIMS Guwahati, 2024.
